# How to select the port and SCM type in the Arduino IDE?
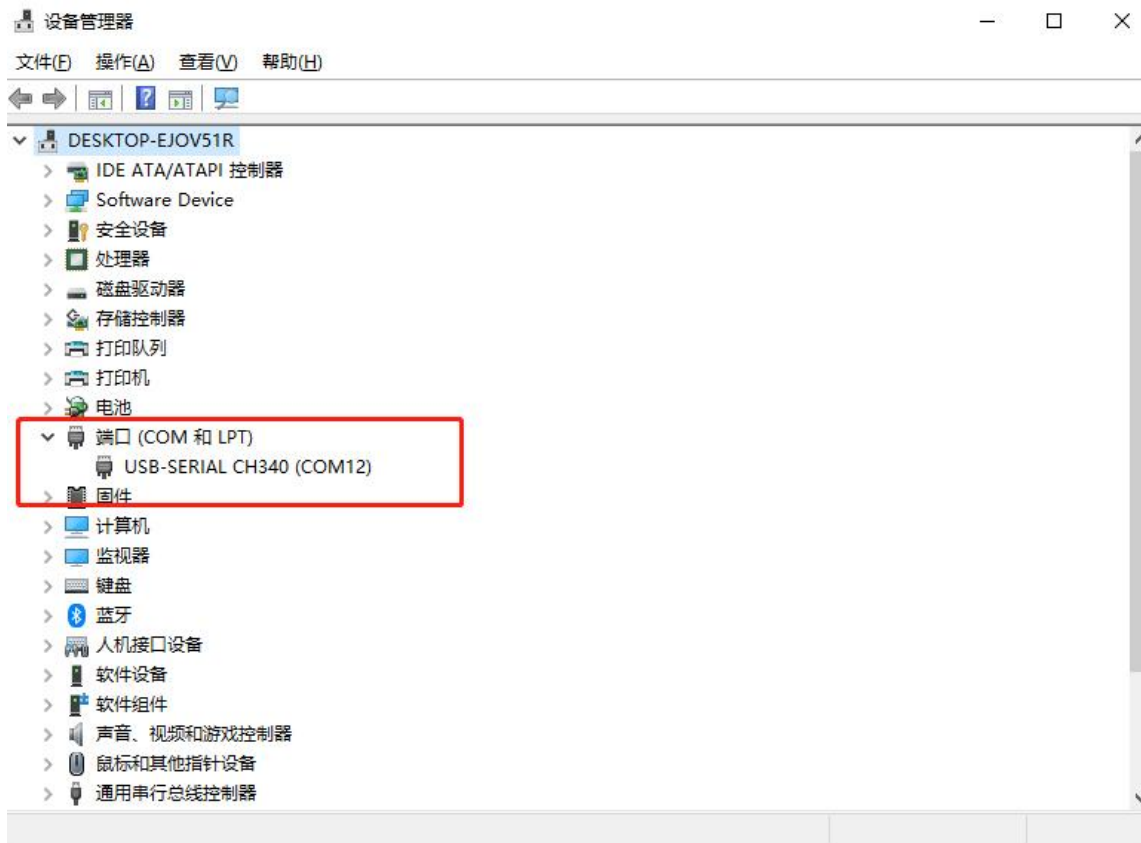

一、Select a port

click on the top line of text tools″

click on the toolbar and select port , click Select port number

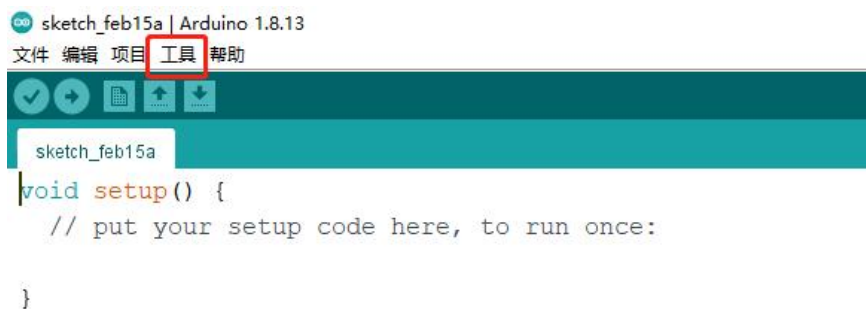

burn Boot program

if you don't know which one, you can look at the Device Manager.

二、Select the SCM type

click on the top line of text tools "

Click on the toolbar and select development Board , click Select the corresponding model.

sketch_feb15a | Arduino 1.8.13
